SUMMARY

Full-Stack Next.js Engineer & AI Annotation Specialist with 3+ years of experience building production-grade web applications and contributing to AI model evaluation pipelines. Skilled in scalable backend architecture, authentication systems (NextAuth, JWT, OAuth), and payment integrations (Stripe, PayPal), alongside hands-on experience in RLHF, response evaluation, and structured data annotation. Proven ability to analyze complex systems, identify inconsistencies, and improve performance across both software and AI workflows.

Currently seeking remote opportunities to contribute to high-impact products at the intersection of software engineering, data, and AI systems.

CORE SKILLS

- **Frontend:** Next.js, React, TypeScript, Tailwind CSS, shadcn/ui
- **Backend:** Node.js, Express, REST, GraphQL
- **Auth:** NextAuth, Clerk, JWT, OAuth
- **DB/ORM:** Prisma, PostgreSQL, MongoDB, MySQL
- **Cloud/Tools:** Vercel, AWS, Git, Cloudinary, Stripe, PayPal
- **Testing:** Jest, React Testing Library, Cypress
- **AI Data:** Data Labeling, AI Annotation, Model Evaluation (LLM & CV), QA/Review, Guideline Adherence

EXPERIENCE

AI Data Annotator & Model Evaluation Specialist

Freelance / Remote | 2024 – Present

- Annotated and labeled large-scale datasets (text, conversational AI outputs) to support supervised learning and RLHF pipelines.
- Evaluated AI-generated responses for accuracy, relevance, coherence, and safety based on structured guidelines.
- Designed and applied scoring rubrics to assess model reasoning quality and identify hallucinations or inconsistencies.
- Performed pairwise comparisons and ranking tasks to improve model alignment and response quality.
- Identified edge cases, bias patterns, and failure modes in model outputs to enhance robustness.
- Collaborated with feedback loops by providing detailed justifications to improve model training signals.
- Conducted quality assurance checks to ensure consistency and high annotation standards across datasets.
- Worked with structured and unstructured data, ensuring proper formatting for downstream ML pipelines.

Freelance Full-Stack Developer

 | Apr 2023 – Present

- Built and deployed multiple production ready web applications using Next.js, TypeScript, and modern cloud infrastructure.
- Designed scalable backend systems with PostgreSQL, MongoDB, and Prisma ORM.

- Implemented secure authentication system (NextAuth, JWT, OAuth) across multiple platforms.
 - Integrated payment systems (Stripe, PayPal) for real-world transaction processing.
 - Improved performance, reducing load times by up to **40%**.
 - Developed full-stack solutions including dashboards, APIs, and real-time features.
-

PROJECTS

Secure Escort | <https://secure-escort.vercel.app> | <https://github.com/lemonade0109/secure-escort>

- Engineering a role-based system supporting multiple user types (User/Guard/Admin).
- Implemented access control, request workflows, scheduling/assignment logic, and notifications.
- Implemented real-time tracking system with maps integration.
- Designed complex workflow logic for escort requests and scheduling.

Tech: Next.js, TypeScript, Prisma, MongoDB, NextAuth

Buy Easy | <https://buy-easy-six.vercel.app> | <https://github.com/lemonade0109/busyeasy>

- Developed a full-stack e-commerce platform with secure checkout and payment processing using Stripe and PayPal.
- Designed cart management and session handling logic to support seamless user experience.
- Implemented email workflows for order confirmation and user verification.
- Built scalable backend using Prisma + PostgreSQL

Tech: Next.js, TypeScript, Prisma, PostgreSQL, Tailwind, shadcn/ui

Your Home Away | <https://your-home-away-project.vercel.app> | <https://github.com/lemonade0109/your-home-away-project>

- Vacation rentals with listings, bookings, reviews, payments, and media uploads.
- Auth with Clerk and state management with Zustand.

Tech: Next.js, TypeScript, Prisma, MongoDB, Clerk, Stripe

EDUCATION

Self-taught through real-world projects and continuous learning.

CERTIFICATIONS

Next.js Full Stack • JavaScript Algorithms & Data Structures • React Developer • TypeScript

ADDITIONAL

English (Fluent) • Full-time / Contract
